

**MAS90/200**

MAS 90 and MAS 200 are 32-bit accounting, distribution and light manufacturing software used and recommended by more accountants than any other product in their class. MAS90 and MAS200 Consist of the following optional modules:

**CORE ACCOUNTING**

At the heart of every MAS 90 and MAS 200 system are five core accounting modules - General Ledger, Accounts Receivable, Accounts Payable, Bank Reconciliation and Asset Accounting (formerly Best FAS). The depth of functionality combined with ease of use and intuitive workflow are unrivaled in mid-market products.

**DISTRIBUTION**

The MAS 90 and MAS 200 distribution solution gives you the power to cut costs, build profits, and manage your inventory like never before. And with the efficiency you'll gain, you can count on improving customer service and loyalty. The distribution modules include: Inventory Management, Sales Order, Purchase Order, Bar Code, Credit Card Processing, StarShip, and StarShip Link.

**MANUFACTURING**

Three powerful manufacturing modules (Bill of Materials, Work Order Processing, and Material Requirements Planning) provide detailed and accurate tracking and reporting throughout the entire manufacturing process - from forecasting, to the shop floor, to completion. The MAS 90 and MAS 200 manufacturing solution offers a range of features that will help maximize efficiency through all stages.

**BUSINESS INTELLIGENCE TOOLS**

The MAS90 and MAS200 report writers and integration tools create an all-encompassing information system for your business. Customers rave about the latest additions to MAS 90 and MAS 200: Business Insights and Business Alerts. These business tools and

many others are reasons why MAS 90 and MAS 200 are recommended by more CPAs than any other mid-range accounting and business management solution.

## TIME AND PROJECT MANAGEMENT

The Time and Project Management solutions increase profitability by properly channeling your valuable time. For instance, if you bill your customers for time, Timekeeper delivers a streamlined method for posting time to other modules such as Payroll or Accounts Receivable. By adding Abra Payroll and HR, you get a complete solution for maintaining your most vital asset - your

employees.

## E-BUSINESS

MAS 90 and MAS 200 e-business modules deliver sophisticated technology in an easy-to-use format. We're committed to releasing ongoing software improvements as technology and business requirements evolve. That's why it should come as no surprise that we're at the forefront of the rapidly growing world of e-commerce.

## REMOTE SOLUTIONS

One of the most important trends in technology today is the proliferation of handheld and wireless computing. This capability offers tremendous potential for improved productivity and connectivity among remote staff - from field sales teams and globe-trotting executives to warehouse personnel and onsite consultants.
